

**Blacon High School**  
**Year 8 Options Project**

**July 2020**

**Introduction from Progress Leaders**

Firstly, we'd like to say a **massive congratulations** to everyone in year 8 for being the first cohort in Blacon's history to complete their options entirely online and from a distance. I'd also like to thank parents and carers for supporting and helping with the process; we couldn't have done it without you all! For the final two weeks of the summer term we would like to bookend the options process by giving everyone in year 8 a taster of the options they have chosen.

In this booklet there are a number of 'project tasks' for you to complete prior to the summer holiday beginning. Look through the list and find the option subject you have chosen (they are all in alphabetical order) and then read through the project outline for each of them.

You can complete your project on paper or on the computer, it is completely up to you. Just be ready to bring in a copy in September to share with your teacher.

We know that there is already a lot of work on Google Classroom and many challenges around working at home; this project is meant to be a fun and engaging introduction to your option choices. Just do your best and enjoy putting it together and being creative, ready for the hard work to begin in September.

Take care and stay safe,

Mr Colwell and Mr Lloyd

**Quick Instructions**

- Check the options subject list and find the subjects you chose for your options
- Read the project tasks for **your options**
- Complete the projects over the **last two weeks of the summer term (6<sup>th</sup> July – 17<sup>th</sup> July)**
- Work on **paper** (remember, there is not a Google Classroom for your options classes yet! So you can not submit work on Google classroom for the options projects)
- **Bring in your completed projects in September** ready to share with your new options teacher.
