KS3 Food Technology Contributions

Dear Parents and Carers,

As we continue through this academic year, your child has been completing practical lessons in Food Technology. So far, students have completed five practical lessons and we are pleased that so many of our students have been able to take part and that they have enjoyed them.

In order to ensure that students have all the supplies they need for these practical lessons, our Food Technology department prepare ingredients for our students in advance for use on the day. Therefore, to cover the costs of these materials and equipment, we politely ask for a £3.00 contribution per lesson. This equals £36 upfront for the year, or £12 per term.

We would like to take this opportunity to remind parents and carers that this payment is due at the beginning of each term, and in full by **30th April 2026**. This is payable by Parentpay. A barcode letter is available on request should you need to pay in cash at a PayPoint.

Thank you for your ongoing support, and we hope that you will continue to enjoy the products of your child's practical lessons.

Yours sincerely,

Mrs Hudson

Headteacher
