Why I am a Governor	I was a governor at my children's primary school and naturally wanted to follow them into high school. I think it is important to take an active part in their school life and I'd like to help the school achieve and maintain excellent standards.
What I hope I am bringing to the role	I hope to bring a fresh approach to the governing body and help the school continue on its amazing journey. The school has been through a lot of changes over the years and continues to go in a great direction. I'd like to be a part of that journey and watch our children shine.
